

Free LLR Study Guide

India learner licence test · indriving.win · free, 2026 edition

1. How the test works

15 questions · about **30 seconds** each · **9 correct** to pass (60%) · on a computer at the RTO, or online from home via Sarathi · no going back to an earlier question · topics: traffic rules, road signs, safe driving, documents.

2. Numbers you must remember

Item	Value
Minimum age: gearless two-wheeler (≤ 50 cc) / geared bike or car / transport vehicle	16 / 18 / 20
Learner licence validity · wait before the driving test	6 months · 30 days
Fees: LL application + test	₹150 + ₹50
Blood alcohol limit (Section 185)	30 mg / 100 ml
Private vehicle registration validity	15 years
Report an accident to the police within	24 hours
Compulsory insurance	Third-party
Maximum persons on a two-wheeler	2
Overtake on the · India drives on the	right · left

3. Sign shapes

Circle = order (red ring = prohibition, blue = mandatory) · **Triangle** = warning · **Rectangle** = information · **Octagon** = STOP · **Inverted triangle** = GIVE WAY

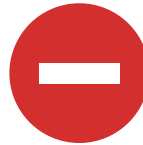

4. Road signs and their meanings

Come to a complete halt, then proceed when safe

Slow down and give way to traffic on the main road

No entry for all vehicles

No parking

No stopping or standing

Maximum speed 50 km/h

Horn prohibited

U-turn prohibited

Left turn prohibited

Right turn prohibited

Overtaking prohibited

Trucks prohibited

Turn left compulsory

Turn right compulsory

Go straight only

A school ahead

Pedestrian crossing ahead

A narrow bridge ahead

Slippery road

A roundabout ahead

Men at work

A railway level crossing with a gate

A speed breaker (road hump)

A sharp left curve

A cross road ahead

A T-junction ahead

Hospital nearby

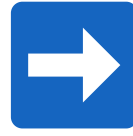

Parking allowed

A petrol pump

First-aid post

One-way street

A right hair-pin bend

Falling rocks

A side road joining from the left

A Y-intersection ahead

A steep ascent (uphill)

End of all prohibitions and restrictions

Pedestrians prohibited

Cycles prohibited

Sound horn compulsory

Compulsory keep left

Parking on the right allowed

Resting place

Narrow road ahead

Level crossing unguarded

No entry for cars and motorcycles

Bullock carts prohibited

Compulsory ahead or turn left

Right hand curve

Left hair pin bend

Right reverse bend

Left reverse bend

Axle weight limit

Side road right

Major road ahead

Dangerous dip

Y-intersection, road to the left

Y-intersection, road to the right

Compulsory go ahead or turn right

Loose gravel

Cycle crossing

Possibility of cattle on road

Ferry

Steep descent

Road widens ahead

Gap in median

Barrier ahead

No through side road

No through road

Parking both sides

Parking lot for scooters and motorcycles

Parking lot for taxis

Parking lot for autorickshaws

Staggered junction ahead

Compulsory keep right

Maximum speed 30 km/h

An eating place (restaurant)

Light refreshment (tea or snacks)

A public telephone

A police aid post

A bus stop

All motor vehicles prohibited

5. Sample questions (answers below each)

1. What shape are mandatory (command) road signs?

- A. Triangular
- B. Circular
- C. Octagonal only
- D. Diamond

✓ Circular — Mandatory (and prohibitory) signs are circular. Cautionary signs are triangular, and informative signs are rectangular. The octagon is reserved for STOP.

2. A road sign with a red circular border is a:

- A. Prohibitory sign
- B. Cautionary sign
- C. Informative sign
- D. Parking sign

✓ Prohibitory sign — A red border means something is prohibited, such as No Entry or No Overtaking. Cautionary signs have a triangular red border, and blue signs give commands or information.

3. Cautionary road signs are generally in the shape of a:

- A. Triangle
- B. Circle
- C. Square
- D. Octagon

✓ Triangle — Cautionary signs warn you of hazards such as curves, junctions or schools, and they are triangular with a red border.

4. Informative signs are usually:

- A. Rectangular with a blue background
- B. Triangular with a red border
- C. Circular with a red border
- D. Octagonal and red

✓ Rectangular with a blue background — Informative (guide) signs tell you about parking, fuel, hospitals, directions and so on. They are usually rectangular.

5. A yellow road marking along the centre of the road with a solid line on your side means:

- A. You may overtake freely
- B. Do not cross the line to overtake
- C. Parking is allowed
- D. Bus lane

✓ Do not cross the line to overtake — A continuous line on your side means do not cross it, because overtaking is unsafe here. A broken line allows crossing to overtake only when it is safe.

6. A zebra crossing is marked by:

- A. Alternate black and white stripes across the road
- B. A yellow zigzag line
- C. Two solid red lines
- D. A blue circle

✓ Alternate black and white stripes across the road — Zebra stripes mark where pedestrians may cross. Stop behind the stripes when someone is crossing or waiting, and do not park or overtake near them.

7. In India, vehicles keep to which side of the road?

- A. Right
- B. Left
- C. Centre
- D. Either side

✓ Left — Indian traffic keeps to the left, so the driver sits on the right. Slower vehicles stay in the left-most lane.

8. On which side should you normally overtake another vehicle?

- A. Left
- B. Right
- C. Either side
- D. On the shoulder

✓ Right — Overtake from the right of the vehicle ahead. The only exception is when that vehicle is turning right and has signalled, in which case you may pass on the left. Passing on the shoulder is not allowed.

9. A red traffic light means:

- A. Slow down
- B. Stop behind the stop line
- C. Proceed with caution
- D. Turn left only

✓ Stop behind the stop line — Red means stop behind the stop line (not on or past the zebra crossing). Wait until the light turns green, or the police direct you otherwise. Turning left on red is not permitted unless a signal or sign says so.

6. On exam day

Read the whole question and all options · when in doubt choose the safest, most cautious option · never spend more than 20 seconds on one question · do 3–4 timed mock tests on indriving.win first.
